Reference Letter for Karen Julia Korfmacher

Executive Coaching & Sparring for Legal Professionals & Leaders

Karen Julia Korfmacher has been working with us at JuraMIND® as a coach for some time now, and we highly value the collaboration.

She supports clients across different career stages – from students and legal trainees to experienced professionals and leaders – with a distinctive combination of analytical clarity, structured thinking, and a highly perceptive, focused, and empathetic approach.

With strong emotional intelligence, she enables clients to navigate complex challenges, initiate meaningful change, and move forward with confidence. She listens attentively, asks precise and thought-provoking questions, and creates a space where reflection translates into clear decisions and meaningful action.

What stands out in particular is her ability to quickly grasp complex situations and distill them into clear, actionable next steps. Especially in high-stakes career decisions and phases of professional transition, we experience her as an exceptionally effective sparring partner – including for clients in leadership roles.

The feedback from our clients has been consistently excellent. Many report gaining not only clarity, but also a stronger sense of direction, increased confidence in their decision-making, and the ability to act decisively in complex professional environments.

Karen Julia is an outstanding asset to our collaboration, both professionally and personally. We particularly value her clear, structured, and highly engaging approach, combined with genuine warmth and professionalism. We recommend her without reservation.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. Lintl".
